CLONE YOURSELF WITH CLAUDE

Your personal AI assistant for double the productivity.

Did you know that it is possible to delegate routine work and simplify complex tasks using an AI assistant that supports you throughout your entire workday?

In our practical course, you will learn how to use **Claude by Anthropic** as your personal AI assistant—it will take over routine tasks, information processing, and project brainstorming, giving you more time for work that brings true value to you.

Top 5 things you will 100% learn in this training:

- Work with Claude as a personal AI assistant
- Utilize Cowork when working with AI on your tasks and projects
- Delegate repetitive and time-consuming tasks
- Create workflows that help you achieve more with less effort
- "Clone yourself" by providing the AI with the right context, instructions, and working style

Come to the training and discover how AI can become your everyday work partner
—and learn to work even smarter, faster, and more efficiently than ever before!
